Dear Mark Sweeney,

During the past two months we have continued to see increases in raw material costs and other costs. Unfortunately, these costs continue to escalate despite our best efforts to offset or mitigate them and we are forced to pass them on. In response, Crane will be increasing its surcharge to 20%. The surcharge will be for all FRP and accessory products, Sanigrad, and Adhesive. This increase will be effective with new orders placed for shipment on or after September 1, 2021. We will continue to monitor this situation closely and provide you periodic updates as to the direction of the surcharge.

Thank you for your continued business and support for Crane products. If you have any questions, please contact your local District Manager or Regional Manager.

Sincerely,

Matthew Shields

Vice President of Building Products
