October 4, 2021

Dear Dryvit Customer,

In previous communications, we committed to providing you with regular updates related to raw material costs and supply chain challenges. Since our last communication supply continues to remain tight and raw material prices continue to rise across all our technologies. We are working hard to act responsibly during these unprecedented times.

Effective November 22, 2021, we will be applying a 6% price increase on all Dryvit products. Orders placed prior to November 22, 2021 and shipped within our standard lead time will invoice at pre-increase prices. We understand the challenges in the market, and we are doing our best to minimize the raw material impact to you and your customers. Before the effective date, the new pricing will be available for view in the Distributor Community.

We value your business and hope you are managing well through these difficult times. Thank you for your continued support. If you have any immediate questions, please contact your local sales representative or customer service representative.

Sincerely,

A handwritten signature in black ink that reads 'Dave Maynard'.
