RE: 2021 Price Increase – Effective October 1, 2021

Dear Valued Henry Customer,

We continue to experience disruptions in the global supply chain that are causing unreliable and uneven raw material availability and pricing, making it challenging to plan, make and ship finished product. We are working through these headwinds daily, and we appreciate your partnership as we work through these supply challenges together.

Due to these and related circumstances that we are all experiencing and expect to persist through the remainder of 2021, **all orders shipped on or after October 1, 2021 will receive a price increase of 5% excluding silicone and ProDeq™ (polyurea) products which will receive a 10% increase** and will be invoiced at the higher price.

Administratively, orders placed on or after September 15, 2021 will automatically receive revised pricing.

August and September orders of Henry products may be limited to +10% of the last three month's average purchases and subject to availability.

This price increase is applicable to all Henry products, including those branded Henry, National Coatings or sold under another brand. New price lists will be issued shortly. Your Henry Sales Representative will be in contact to review changes and answer any questions you may have.

We appreciate your business and look forward to continuing to serve you.

Sincerely,

A handwritten signature in black ink, appearing to read "Mark Jangl".
