RE: Price Increase effective January 24, 2022

Dear Valued Customer,

As we enter 2022 the global supply chain challenges are not improving. We continue to face escalating input costs, unreliable raw material availability, and challenging logistics constraints making it difficult to cost effectively plan, make, and ship finished product despite our best efforts.

Effective January 24, 2022 Henry Company will increase prices 10% for all Henry products, including those branded Henry, National Coatings or sold under another brand. Silicone Roof Coatings will continue to be priced at market rates based on material availability.

All orders shipped on or after January 24, 2022 will be invoiced at the new price. New price lists will be issued shortly. Your Henry Sales Representative will be in contact to review changes and answer any questions you may have.

We anticipate these supply challenges and inflationary conditions will persist for the foreseeable future. Our sourcing and production teams continue to work tirelessly through these headwinds to meet customer demand and we appreciate your partnership as we work through these supply challenges together.

Sincerely,

Marc Tropper
