

January 18, 2022

Dear valued Owens Corning® Insulation customer,

A few days ago we learned of a technical issue in our email distribution system that resulted in most of our U.S. building insulation customers not receiving a mineral wool insulation price increase notification sent November 19, 2021. The increase would have been effective with orders shipped on or after February 1, 2022.

We will not implement this price increase as originally planned due to the inadequate notice this has caused. However, our business continues to face increased inflationary pressures, particularly in the energy and transportation spaces, and due to these circumstances we must announce a price increase in Q2 2022.

Owens Corning Sales, LLC (“Owens Corning”) will increase its prices on the following Thermafiber® mineral wool building insulation products in the U.S. with all orders shipped on or after April 4, 2022.

Products	% Increase
Sound Attenuation Fire Blankets (SAFB™)	12%
FireSpan® 40, 90	12%
RainBarrier® 45, HD, HC, HC Plus, HC Max	12%
Safing	12%
VersaBoard® 35, 40, 60, 80	12%
UltraBatt™ Wood	12%
UltraBatt™ Steel Stud	12%
Fire & Sound Guard®	12%
TopStop	12%
Horticulture Board	12%

Order confirmations for full truckload orders with an assigned ship date prior to April 4, 2022, will receive current pricing. Less-than-full truckload orders subject to consolidated shipping on or after April 4, 2022, will receive the increased price.

Owens Corning will be temporarily suspending mixed mineral wool loads from U.S. fiberglass plants due to product availability.

Thank you for your continued support of Owens Corning.

Sincerely,

Austin T. Hess
General Manager
North American Mineral Wool Insulation
