RE: Price Increase – Residential & Light Commercial products effective June 1, 2022

Dear Valued Customer,

The global supply chain challenges remain to impact our business in 2022. We continue to face significant inflation and supply constraints related to manufacture and supply of our products, including raw materials, labor, and transportation.

Our teams continue to explore every opportunity to mitigate the impact to you and your business, including supplier negotiations, cost reductions, and supply chain improvements. Even with our best efforts due to the most recent economic pressures, we are announcing the following increase on orders shipped on or after June 1, 2022.

- Residential Building Envelope Systems 10%
 - (Excluding ASK, Fortiflash (asphalt based only), Brick Flashing, PlyDry, HydroTex, Eaveguard, EZ Seal)

All orders shipped on or after June 1, 2022, will be invoiced at the new price. New price lists will be issued shortly. Your Henry Sales Representative will be in contact to review changes and answer any questions you may have.

Our goal during these unprecedented times is to continue to be your supplier of choice, never compromising the quality of our products or service. That includes passing along responsible price increases when all other options have been exhausted to ensure continuity of supply.

We value and appreciate your business and thank you for continued partnership with Henry as we work together through these difficult times.

Sincerely,

Marc Tropper
