

March 8, 2022

Dear Valued Customer:

With the rising cost of transportation in these unprecedented times, it has made it necessary to increase our transportation rates as a company. Effective 3/9/2022, we will be implementing a delivered fuel surcharge of \$6.50 for each pallet of product delivered. Will call orders will incur an energy surcharge of \$3.50 per pallet.

As always, the QUIKRETE companies will continue to do all that it can do to help control costs for our customers and we hope that in time, this fluctuation in transportation costs will subside.

Regards,

Dale Nehls
