Chicago, IL 60606

Dear Mark Sweeney,

Global events and supply shortages combined with higher demand are driving costs up for major materials, energy and freight. These increases are not expected to decline in the foreseeable future.

As a result, we will be increasing the material surcharge from 36% to 45% on all products effective with orders shipped on or after May 9, 2022.

We appreciate your understanding during these unprecedented times of inflation. We will continue to monitor this situation closely and provide you periodic updates as to the direction of the surcharge. If you have any questions, please contact your District Sales Manager.

Sincerely,

Matthew Shields
Vice President of Building Products
