TO: Hunter Panels Xci Wall Insulation Customers

RE: Price Increase Announcement – Effective October 1, 2022

Ongoing global supply challenges, along with strong demand for primary raw materials, continue to drive rising costs for the polyiso industry. Our efforts to mitigate the cost increases are ongoing but remain challenged by both demand and elevated feedstocks. Despite the cost challenges, we remain committed to maximizing our raw material inflow thus providing you and your customers with the products you need.

The following price increase will be implemented **effective October 1, 2022**.

Hunter Xci Wall Insulation Products **up to 8.5%**

Materials shipping after October 1 will be invoiced at the price valid at the time of shipment regardless of the date the order was placed. Pre-existing documented quotes will be honored as acknowledged by Hunter Panels and quote numbers must be utilized.

Beyond the global supply challenges, we continue to focus on our joint long-term success through investment in our people, a new production line, new product innovation, training and sustainability initiatives.

Please reach out to your Hunter Xci Regional Manager or to me with any questions. Thank you for your continued support of Hunter Panels and our Xci Wall Insulation products.

Sincerely,

A handwritten signature in cursive script that reads "Grant Stahl".
