

January 2, 2024

Dear Valued Senergy Customers,

Sika Facades is committed to providing quality products and outstanding service that provide real value to our customers. While inflation has retracted, we continue to be faced with higher raw material and labor costs that need to be passed on to the market.

Effective February 12, 2024, we will implement a price increase on select Senergy and Master Builder Solutions finishes, base coats, adhesives, meshes and air and water resistive barriers and accessories.

Prices will be increased from 3 to 5%. This price increase does not apply to specific job quotes that have already been issued and have not expired. Job quote extensions will be subject to the price increase. You will receive 2024 price guides by February 1, 2024.

Please note the following guidelines for incoming orders between now and February 12, 2024:

- Orders placed and shipped prior to February 12, 2024, will be invoiced at your current pricing.
- Orders placed prior to February 12, 2024, and shipped after February 12, 2024, will be invoiced with the new pricing.
- Orders will be processed on a “first come, first served” basis and will be shipped according to our terms and conditions with our best efforts to ship complete. However, we cannot ensure that all product ordered prior to February 12 will be shipped before February 12, 2024. It is strongly advised that you place orders well in advance to improve the likelihood of shipment prior to February 12.

We value your continued support and commitment to Senergy. If you have any questions, please feel free to contact your local sales representative.

Sincerely,

Eric Hindson
Director of Facades
