

Dear Blue Ridge Fiberboard Customer,

Blue Ridge Fiberboard is announcing a price increase effective for all shipments on or after June 1, 2024. The price increase will be \$10 per MSF (1,000 square feet) on a ½” basis. This increase represents an additional .01 cent per square foot on a half inch thickness basis.

Job quotes will be honored but must ship prior to the expiration date given at the time of the quote. Job quotes that have not shipped prior to the expiration date, at no fault of Blue Ridge Fiberboard, will not be extended without the addition of the upcoming price increase.

Blue Ridge Fiberboard did not drastically increase pricing during the past couple years based upon the supply shortage as many manufacturers did. We remained true to our clientele by holding the line on pricing to the best of our ability, including the cancellation of our previously announced October 1, 2023 price increase. All Blue Ridge Fiberboard's price increases have been and will continue to be based solely upon our actual increased costs incurred in raw materials, energy, and labor.

We sincerely appreciate your continued support and understanding.

1. **Customer Service West 1-800-535-4088**
2. **Customer Service East 1-800-233-8721**

Best regards,

Mike Taylor
