

December 17, 2024

Dear Valued Customers,

Sika Facades is committed to providing quality products and outstanding service that provide real value to our customers. While inflation has stabilized, we continue to be faced with higher raw material and labor costs that need to be passed on to the market.

Effective February 1, 2025, we will implement a price increase on select Parex and LaHabra products. Prices will increase 5% for wet pail products, including acrylic finishes, base coats and air/water resistive barriers.

This price increase does not apply to specific job quotes that have already been issued and have not expired. Job quote extensions will be subject to the price increase. Price Lists will be provided as soon as possible by your local sales representative.

Please note the following guidelines for incoming orders between now and February 1, 2025:

- Orders placed and shipped prior to February 1, 2025, will be invoiced at your current pricing.
- Orders placed prior to February 1, 2025, and shipped after February 1, 2025, will be invoiced with the new pricing.
- Orders will be processed on a "first come, first served" basis and will be shipped according to our terms and conditions with our best efforts to ship complete. However, we cannot ensure that all product ordered prior to February 1 will be shipped before February 1, 2025. It is strongly advised that you place orders well in advance to improve the likelihood of shipment prior to February 1.

We value your continued support and commitment to the Parex and LaHabra brands. If you have any questions, please feel free to contact your local Territory Sales Representative.

Sincerely,

A handwritten signature in black ink, appearing to read "Eric Hindson", written over a light blue horizontal line.

Eric Hindson
Director of Facades
