

March 10, 2025

Dear valued customer,

The Quikrete Companies thanks you for your business and partnership in 2025.

As we continue to encounter industry wide cost increases in labor, raw materials, and transportation, we are announcing a price increase of 3% to 4% on all stucco products effective April 1, 2025. Your local sales representative will be contacting you in the coming weeks to discuss your 2025 pricing.

Masonry pricing changes will also be going into effect on April 1st. Final price lists will be forthcoming before the end of the week.

We look forward to continuing as your business partner in the upcoming year and continuing to provide the quality products you have come to expect.

Please call with any questions or concern,

Sincerely,

Pat Janis
