

Price Increase Notice Effective July 1st, 2025

May 19, 2025

Dear Valued customers,

We would like to thank you for your continued trust in Tajima Tool.

The new tariffs started in February, specifically the 30% duty on Chinese imports and other tariffs exceeding 10% on goods from other countries, have directly impacted our costs. In addition, we have faced substantial increases in warehousing, liability insurance, and other operational expenses. Despite our efforts to absorb these rising costs through improved efficiency and internal optimizations, the cumulative impact and the circumstances beyond our control have made a price adjustment unavoidable.

To ensure we can continue delivering the high-quality products and service you rely on, we will implement a price increase effective for all orders placed on or after **July 1, 2025**.

Key Details:

- The increase rates vary depending on the product (3.5% - 9.7%). A revised price sheet and updated program details will follow this notice for your reference.
- Orders received **before July 1, 2025**, will be honored at current pricing, provided shipments are completed by **July 3, 2025**.
- Back orders will not be accepted. Any items that are out of stock at the time of order and therefore cannot be shipped immediately will be considered unavailable and, if reordered later, will be subject to the new pricing in effect at that time.

We understand that price changes are never welcome, and we sincerely appreciate your understanding as we navigate these challenging market conditions. These tariffs are designed to support tax relief measures, domestic reinvestment and infrastructure —we stand behind as a company committed to the prosperity of the U.S. and the trades we serve.

Should the current level of the new tariffs last continuously or further tariff increase arise, we will continue to communicate proactively. In the meantime, our team remains dedicated to supporting you with the same level of excellence you expect from Tajima Tool.

Thank you for your partnership and trust.

Sincerely,

Yasuo Tanaka

President & CEO
