

Dear Blue Ridge Fiberboard Customer,

Blue Ridge Fiberboard is announcing a price increase effective for all shipments on or after July 15, 2025. The price increase will be \$10 per M.S.F. (1,000 square feet) on a ½" basis for all Side-Wall Products (SoundStop®, Sheathing, IBB, IBP) The increase represents an additional .01 cent per square foot on a half-inch thickness basis.

Job quotes will be honored but must ship before the expiration date given at the time of the quote. Job quotes that have not shipped before the expiration date, at no fault of Blue Ridge, will not be extended without the addition of the upcoming price increase.

All of Blue Ridge's price increases have been and will continue to be based solely on our increased costs incurred in raw materials, energy, labor, and transportation.

We sincerely appreciate your continued support and understanding. Your loyalty is the cornerstone of our business, and we are grateful for your trust in us.
