

June 16, 2025

**To Our Valued Customers,**

**Re: Price Increase Effective July 1, 2025**

Consolidated Fabricators Corp., Building Products Division, will implement a price increase on all steel products for shipments made on or after **July 1, 2025**.

This decision comes in response to newly announced federal tariffs on imported steel, which were increased from 25% to 50% as of June 3, 2025. These changes are contributing to upward pricing pressure not only on imported material but also on domestic mill output. As a result, steel costs continue to escalate across the market, impacting availability, lead times, and overall product pricing.

We remain committed to supporting your business through these challenging market conditions by maintaining transparent communication, reliable product supply, and exceptional service.

**Updated price pages** will be distributed as soon as they are available.

In line with our quote policy, we will honor job quotes that are committed in writing within 30 days of the quote date. All other quotes are subject to re-evaluation based on prevailing market conditions.

We appreciate your continued partnership and thank you for your trust and support.

Sincerely,

Consolidated Fabricators Corp.  
Building Products Division
